

2026-2027 Holiday Shutdown

DATE: 30 June 2026

All Team Members,

SC Bio Ltd will observe a Holidays Shutdown from Monday 5:00 pm 21st December 2026 until Tuesday 8:30 am on 05 January 2027.

This year we will communicate to customers an earlier closedown date of 5:00 pm Friday 18th December 2026, this is to enable us to use the Monday 21st December to finish lab jobs.

In addition to the four (4) public holidays during this period, there are six (6) days that must be taken as annual leave. You can apply for additional leave at your choice.

There is the opportunity to work during the annual leave days to finish lab work, this can be negotiated directly with myself.

We hope you can take advantage of the break to relax and enjoy time with friends and family and return refreshed and excited to meet the new opportunities ahead in 2027.

We trust you find this acceptable and encourage you to please ask if you have any questions.

Kind Regards

A handwritten signature in blue ink that reads 'A. Watson'.

Aaron Watson
